

New Life Center Ministry Report

March 2019

Rustam, a boy from the boarding school for the special children, has been staying in our family for six months.

Adaptation is not easy, but we continue to help him.

A very important area of our ministry is social rehabilitation of people who were dependent on alcohol and drugs. Most of the children in boarding schools and orphanages are from families with alcohol and drugs background.

Therefore, we are very happy when the fruits of our ministry are visible.

Anton was a drug addict for many years. He stole, lied, brought a lot of evil to many people. He had not even dreamed that he would once have a good job, and even more – family and children. Young man went through a full course of social rehabilitation.

Today, with God's help, Anton has everything he never dreamed of. On the photo, his wife Julia, daughter Nicka and son Gleb. Anton has a good job, two cars, and recently, despite his past, he even got permission to hunt. He is also an active member of our church and helps people like he was himself not so long ago. Thank God!

Pastor Andrei Blinkov
