

NEW LIFE

RECOVERY CENTERS FOR ADDICTED PEOPLE

Results for 2006-2011

"NEW LIFE" RECOVERY CENTERS

- Charitable recovery for drug- and alcohol-addicted people
- Association of several Centers in Moscow area, Volga area, Moldova and Abkhazia
- "Eight steps" program for emotional, spiritual and moral restoration
- Post-rehabilitation adjustment (assistance with finding jobs upon completion of the recovery program)
- In the course of five years 40% of the rehabilitants who completed the program became free of additions and started new life
- The effectiveness of state clinics is 5-7%.

FIVE-YEAR WORK STATISTICS

(data for one recovery center)

- 60 people have completed the program.
- 51 water baptisms, some people returned back to their families and home churches, some stayed
- 40% of the drug addicts that come to our centers are HIV-positive people
- At least 200 people had some exposure to the program or received general counseling.

OUR PROJECTS

- Refurbishment of a new center in Khimki, Moscow area
- Building up a farm in Kaluga area aiming to provide post-rehabilitants with homes and jobs in the country (90 miles from Moscow, Kaluga area)
- We are about to launch a new program aiming to provide people with affordable housing and paid jobs for ex-addicted and HIV-positive people
- We run and develop business for people who completed the program – office and household movements

Rehab ministers in the new Center

Building a farm in Kaluga area

NEW LIFE REHABILITANTS

Sergey, with his mother, Valentina.

To help her son, she sold two apartments and spent money for his medical therapy in Switzerland. Sergey became free of drugs in our center, for free. He has a job, is trying to obtain an education, recently got married, is active in local church.

Ten years of heroin addiction. When Kostya realized that only a miracle can help him, he asked friends to pray for him. He eventually came to New Life recovery center where he actively ministers today. With his spouse, Lyuba.

Andrey, head of a recovery center in Moscow region with his fiancée, Olga. A might-have-been artist, or a navy military officer, or a banker. In the course of ten-year addiction he tried all kinds of drugs and undergone a variety of treatments in state and private clinics. After rehabilitation in our center in addition to his physical freedom he obtained a vision for his life, which is helping other people.

Anatoly, a criminal godfather in the past. Trying to escape his criminal problems Anatoly moved to Moscow. One day he met Christians feeding homeless people at a train station, who gave him an address of our center.

Upon completion of the recovery program in New Life center, returned back to his family who at first hardly believed in his transformation. Anatoly works and ministers in and with his family in Syzran'.

COST OF THERAPY FOR ADDICTS IN PRIVATE AND STATE CLINICS

- Emergency visit of an alcoholics or drug abusers therapist in Moscow – USD100-150
- Private clinics treatment from USD 2000 for 3 days program to USD10000 for 20 days program
- In average 1000 addicted Muscovites bring doctors income of USD 1,5-2 mln
- Effectiveness of therapy is 5-7%.

WHAT IS DRUG ADDICTION IN RUSSIA?

- According to the UNODC expert's number of drug addicts in Russia exceeds 6 mln.
- In 2009 Russia was ranked country number one in terms of heroin consumption (official UNODC data)
- The UNODC estimated that each year 75 to 80 tons of heroin, the most dangerous drug, is consumed in Russia. This is twice as much as in China with its billion-strong population and 3.5 times more than in the US and Canada combined.
- At least 20% of all drug-addicts are school students. The largest amount of addicts – 60% - are the young people in the age of 16 to 30 years
- Every year over 100 thousand of them die
- Life expectancy of heroin addicts in Russia is 28 years.
